

## COMMON RAIL DUMMY REGULATOR KIT

Reference : AC 0803

<b>Item name</b>	COMMON RAIL DUMMY REGULATOR KIT
<b>Bar code</b>	3700461498596
<b>Introduction</b>	Allows you to check the status of the high-pressure pump regulator.
<b>Text</b>	<p>This device is to be used in combination with the digital pressure tester and the high pressure fuel kit.</p> <p>With this kit, you will be able to bypass the pump regulator to measure pressure and diagnose any regulator or pump problems.</p> <p>After observing the low pump pressure: simply remove the original pressure regulator and select the correct bypass regulator to bypass it and seal the port.</p> <p>If the pressure returns to normal, the regulator will cause a loss of pressure. The regulator is therefore to blame.</p> <p>If the pressure remains too low, the pump is defective.</p> <p>This test is recommended by manufacturers of high pressure pumps.</p> <p>The kit includes 8 different dummies to seal all regulator ports.</p>
<b>Warranty period</b>	2 years
<b>Fuel type</b>	Diesel
<b>Tariff code</b>	Tariff Normal (TN)
<b>Warranty Procedure</b>	EASY
