

ATEX FUEL DRAINER

Reference : OP 3528

Item name ATEX FUEL DRAINER

Bar code 3700461400933

Introduction Designed for draining due to misfuelling (petrol mixed with diesel), removing a submerged fuel pump, changing or checking the fuel gauge, flushing the tank...

Text 45 liter mobile tank (on wheels) for completely emptying fuel tanks and fuel lines (gasoline and diesel).

Emptying can be done via the tank filler opening or fuel lines.

Supplied with two antistatic ground cables, an anti-overflow hose and 3 fuel probes.

Complies with ATEX standards:

The ATEX (Explosive Atmospheres) regulation is derived from two European directives (2014/34/EU or ATEX 95 for equipment intended for use in ATEX zones, and 1999/92/CE or ATEX 137 for worker safety).

It applies in France by virtue of compliance with the requirements of the French Labour Code.

The so-called ATEX regulations require all heads of establishments to control the risks relating to the explosion of these atmospheres in the same way as all other professional risks.
