

## INSULATED PLIERS WITH HALF ROUND NOSE PREMIUM ELBOW

Reference : OE 0525

**Item name** INSULATED PLIERS WITH HALF ROUND NOSE PREMIUM ELBOW

**Bar code** 3700461406980

**Introduction** Insulated pliers 1000V.

**Text** Allows easy bending of electrical wires.  
Suitable for operations requiring a precise grip and cut.  
Better accessibility to the work area due to the angle of the jaws.  
Induction treatment of the cutting edges, allowing a long life of the jaws.  
Insulating reinforcements at the ends of the arms to protect against shocks.  
Tip gripping areas with soft ridges (avoids cable damages).

A color distinction is made between the 2 layers of insulation to allow a visual check of the entire tool to confirm its proper use in electrical environments as recommended by UTE18-510 and IEC 60900.  
**WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER.**

- The thickness of the insulating layers is set according to the weight of the tools in order to allow an optimal resistance.
- The tools are designed to resist to extreme temperatures between -20 and + 70°C
- Each tool is tested to 10,000V AC and approved for 1000V AC for use on low voltage networks.
- Several controls at each stage of production in addition to the IEC 60900 normative controls.

**Product highlight** Safety: wear indicator  
Lifetime warranty

**Specifications** Specifications:  
- standard: NF EN 60900 / CEI 60900 / NF ISO 5743 / NF ISO 5744 / NF ISO 5745  
- cutting edge hardness: 60HRC  
- cutting edge: axial cut  
- inside jaws: grooved  
- jaws: half round bent at 45  
- cutting capacity: medium hard steel wire 160 kg/mm<sup>2</sup>: 1.6mm  
- high performance steel: chrome vanadium

**Warranty period** lifetime

**Voltage** 1000V

**Length (mm)** 205.00 mm

**Product weight (kg)** 200.00 kg

**Tariff code** Tariff Normal (TN)

**Warranty Procedure**EASY
