

PREMIUM INSULATED PHONE PIERS WITH LONG STRAIGHT HALF ROUND BEAKS

Reference : OE 0526

Item name	PREMIUM INSULATED PHONE PIERS WITH LONG STRAIGHT HALF ROUND BEAKS
EAN code	3700461406997
Intro	<p>Allows easy bending of electrical wires. Suitable for work requiring precision gripping and cutting. Length of jaws adapted to reach hard-to-reach parts. Chrome plated finish for high corrosion protection through a succession of 5 baths. Induction treatment of the forging of the cutting edges for a long life of the jaws. Insulating reinforcements at the ends of the arms to protect against shocks. Soft grooves on the gripping surface of the spout (prevents damage to the cables).</p>
Text	<p>Pliers with long straight half-round tips. Insulated 1000V.</p> <p>A color distinction is made between the 2 layers of insulation to allow a visual check of the entire tool to confirm its proper use in electrical environments as recommended by UTE18-510 and IEC 60900.</p> <p>WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER.</p> <ul style="list-style-type: none">- The thickness of the insulating layers is set according to the weight of the tools in order to allow an optimal resistance.- The tools are designed to resist to extreme temperatures between -20 and + 70°C- Each tool is tested to 10,000V AC and approved for 1000V AC for use on low voltage

networks.

- Several controls at each stage of production in addition to the IEC 60900 normative controls.

Product highlight Safety: wear indicator
Lifetime warranty

Specifications Specifications:
- standard: NF EN 60900 / CEI 60900 / NF ISO 5743 / NF ISO 5744 / NF ISO 5745
- cutting edge hardness: 60HRC
- cutting edge: axial cut
- inside jaws: grooved
- cutting capacity: medium hard steel wire 160 kg/mm²: 1.6mm
- high performance steel: chrome vanadium

Warranty period lifetime

Tension 1000V

Length 205.00 mm

Product weight 240.00 kg

Tariff code Tariff Normal (TN)
