Reference : OE 0527

**Item name** PREMIUM INSULATED ADJUSTABLE PLIERS WITH DUAL RACK

**Bar code** 3700461407000

**Introduction** Insulated adjustable joint 1000V.

**Text** Adjustable pliers with a hinge on top of each other, no risk of misalignment and increases the safety of the clamps.  
Strong shape, thanks to its curved tip and slim shape, creates accessibility in tight spaces.  
Self-locking on pipes and nuts for safe working and energy saving.

Insulating reinforcements at the ends of the arms to protect against shocks.  
Ergonomics allowing a powerful effort and a safe tightening.  
Protective lug to avoid pinching.

A color distinction is made between the 2 layers of insulation to allow a visual check of the entire tool to confirm its proper use in electrical environments as recommended by UTE18-510 and IEC 60900.

**WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER.**

- The thickness of the insulating layers is set according to the weight of the tools in order to allow an optimal resistance.
- The tools are designed to resist to extreme temperatures between -20 and + 70°C
- Each tool is tested to 10,000V AC and approved for 1000V AC for use on low voltage networks.

- Several controls at each stage of production in addition to the IEC 60900 normative controls.
