

## PREMIUM INSULATED CABLE CUTTER

Reference : OE 0560

**Item name** PREMIUM INSULATED CABLE CUTTER

**EAN code** 3700461407161

**Intro** Insulated cable cutter and stripping.  
For cutting copper and aluminum cables of small cross section.  
Also allows stripping of small section cables.

**Text** To cut copper, aluminum and hard steel wires.  
Also allows the stripping of small section cables.

### STRIPPING FEATURE

Use the small slot near the end of the tool head to cut the sheath, with a rotating motion to cut the sheath around the entire circumference, then pull the sheath to slide it.

### CUTTING FEATURE

Use the large central notch to cut the cable.

- specific dual-edged cutting edges allow for a more comfortable cut
- the special cutting geometry ensures a clean, non-crushing cut of Cu and Alu conductors with minimum physical effort
- insulating reinforcements at the ends of the arms to protect against shocks
- high performance chrome vanadium steel

A color distinction is made between the 2 layers of insulation to allow a visual check of the entire tool to confirm its proper use in electrical environments as recommended by

UTE18-510 and IEC 60900.

WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER.

- the thickness of the insulating layers is set according to the weight of the tools in order to allow an optimal resistance
- the tools are designed to resist to extreme temperatures between -20 and + 70°C
- each tool is tested to 10,000V AC and approved for 1000V AC for use on low voltage networks
- several controls at each stage of production in addition to the IEC 60900 normative controls

**Product highlight** Safety: wear indicator  
Lifetime warranty

**Specifications** Specifications:  
- opening: 16mm  
- length: 205mm  
- copper: 16mm<sup>2</sup>.  
- aluminum: 35mm<sup>2</sup>  
- weight: 340g

**Warranty period** lifetime

**Tension** 1000V

**Length** 205.00 mm

**Tariff code** Tariff Normal (TN)

**Warranty Procedure**EASY
