

PREMIUM INSULATED CABLE CUTTER

Reference : OE 0560

Item name PREMIUM INSULATED CABLE CUTTER

Bar code 3700461407161

Introduction Insulated cable cutter and stripping.
For cutting copper and aluminum cables of small cross section.
Also allows stripping of small section cables.

Text To cut copper, aluminum and hard steel wires.
Also allows the stripping of small section cables.

STRIPPING FEATURE

Use the small slot near the end of the tool head to cut the sheath, with a rotating motion to cut the sheath around the entire circumference, then pull the sheath to slide it.

CUTTING FEATURE

Use the large central notch to cut the cable.

- specific dual-edged cutting edges allow for a more comfortable cut
- the special cutting geometry ensures a clean, non-crushing cut of Cu and Alu conductors with minimum physical effort
- insulating reinforcements at the ends of the arms to protect against shocks
- high performance chrome vanadium steel

A color distinction is made between the 2 layers of insulation to allow a visual check of the entire tool to confirm its proper use in electrical environments as recommended by

UTE18-510 and IEC 60900.

WHEN THE ORANGE LAYER IS DAMAGED AND THE RED LAYER IS VISIBLE = DANGER.

- the thickness of the insulating layers is set according to the weight of the tools in order to allow an optimal resistance
- the tools are designed to resist to extreme temperatures between -20 and + 70°C
- each tool is tested to 10,000V AC and approved for 1000V AC for use on low voltage networks
- several controls at each stage of production in addition to the IEC 60900 normative controls

Product highlight Safety: wear indicator
Lifetime warranty

Specifications Specifications:
- opening: 16mm
- length: 205mm
- copper: 16mm².
- aluminum: 35mm²
- weight: 340g

Warranty period lifetime

Voltage 1000V

Length (mm) 205.00 mm

Tariff code Tariff Normal (TN)
