

EXHAUST GAS EXTRACTION ON MOTORCYCLE ROLLER 10m Ø75mm

Reference : AG 0001

Item name EXHAUST GAS EXTRACTION ON MOTORCYCLE ROLLER 10m Ø75mm

EAN code 3701555300900

Intro Specially designed for exhaust extraction in motorcycle workshops.

Text This mechanical spring reel complete with exhaust blower can be installed on the ceiling or wall, always maintaining the same performance. The equipment allows you to work in a healthy environment without inhalation of exhaust gases and in compliance with work safety standards.

Hose: anti-crushing structure, maintains flexibility over time thanks to the robust nylon spiral with a very tight pitch. This feature prevents the hose from stretching during pulling and from collapsing in high stress situations. Its smooth design on the inside guarantees maximum suction efficiency in m³.

Directly coupled electric motor, statically and dynamically balanced impeller to limit friction, vibration and reduce energy consumption. Inlet and outlet flanges are sized for optimum suction capacity. Support feet for wall or ceiling mounting are included.

Specifications

Specifications:

- galvanized steel structure
- epoxy paint (grey RAL 7040)
- 10m of pipe Ø75mm (-40° to +200°) in high temperature EPDM vulcanized fabric on both sides
- delivery: Ø125mm
- power supply: 230V Mono
- engine power: 0.5hp, 0.35KW, 50HZ, 1.7A

- max flow: 250m³/h
- noise level: 66dB
- thermal protection switch
- reel equipped with a ratchet, an end stop with anti-skid system
- exhaust nozzle equipped with an anti-intrusion grid, a vice grip, a gas suction shutter and an access for the opacimeter probe
- weight: 43kg

Many options available, please contact us.

Warranty period	2 years
Vehicle type	Moto
Decibel level	66.00 dB
Tension	230V
Product weight	43.00 kg
Diameter	75.00 mm
Air flow rate	250
Tariff code	Tariff Equipment (TE)
Type of gas extraction system	Fixed
DPF compatible	NO
Hose length (m)	10m
Hose diameter (mm)	75mm
Max. hose temperature (°C)	200°C
