Reference : AG 0002

Item name	EXHAUST GAS EXTRACTION ON MOTORCYCLE ROLLER 10m Ø75mm 400V
Bar code	3701555300917
Introduction	Specially designed for exhaust extraction in motorcycle workshops.
Text	<p>This mechanical spring reel complete with exhaust blower can be installed on the ceiling or wall, always maintaining the same performance. The equipment allows you to work in a healthy environment without inhalation of exhaust gases and in compliance with work safety standards.</p> <p>Hose: anti-crushing structure, maintains flexibility over time thanks to the robust nylon spiral with a very tight pitch. This feature prevents the hose from stretching during pulling and from collapsing in high stress situations. Its smooth design on the inside guarantees maximum suction efficiency in m3.</p> <p>Directly coupled electric motor, statically and dynamically balanced impeller to limit friction, vibration and reduce energy consumption. Inlet and outlet flanges are sized for optimum suction capacity. Support feet for wall or ceiling mounting are included.</p>
