

GAS SUCTION ON RAIL - 2 CARTS 8M

Reference : AG 0045

Item name GAS SUCTION ON RAIL - 2 CARTS 8M

Bar code 3701555301341

Introduction Specially designed to work on different workshop stations.

Text The rail is produced with a modular aluminum extruded profile equipped with a double rubber lip for easy installation and extraordinary wear resistance. The rail is equipped with two sliding tracks outside the suction chamber to maintain the sliding elements over time. The lightness combined with the rigid structure of the profile facilitates installation and guarantees optimal results for an easy extraction of the exhaust gases. The equipment allows to work in a healthy environment without inhalation of exhaust gases and in compliance with the safety standards at work.

Product highlight Maneuverability

Specifications Specifications:
- length 8m
- galvanized steel structure
- epoxy paint (grey RAL 7040)
- 2X7,5m of Ø100mm pipe (-40° to +200°) in high temperature EPDM vulcanized fabric on both sides
- delivery: Ø 160mm
- power supply: 400V Tri
- motor power: 1,0cv, 0.75KW, 50HZ, 1.7A
- max flow: 2X450m³/h

- noise level: 68dB
- thermal protection switch
- exhaust nozzle equipped with an anti-intrusion grid, a vice grip, a gas suction shutter and an access for the opacimeter probe

Many options available, please consult us.

Warranty period	2 years
Vehicle type	LV
Decibel level	68.00 dB
Voltage	400V
Diameter (mm)	100.00 mm
Air flow rate	450
Tariff code	Tariff Equipment (TE)
