

EXHAUST GAS ON ROLL HEAVY WEIGHT 10m Ø125mm 400V

Reference : AG 0012

Item name EXHAUST GAS ON ROLL HEAVY WEIGHT 10m Ø125mm 400V

EAN code 3701555301013

Intro Specially designed for exhaust gas suction for HGV workshops.

Text This mechanical spring reel complete with exhaust blower can be installed on the ceiling or wall, always maintaining the same performance. The equipment allows you to work in a healthy environment without inhalation of exhaust gases and in compliance with work safety standards.

Hose: anti-crushing structure, maintains flexibility over time thanks to the robust nylon spiral with a very tight pitch. This feature prevents the hose from stretching during pulling and from collapsing in high stress situations. Its smooth design on the inside guarantees maximum suction efficiency in m3.

Directly coupled electric motor, statically and dynamically balanced impeller to limit friction, vibration and reduce energy consumption. Inlet and outlet flanges are sized for optimum suction capacity. Support feet for wall or ceiling mounting are included.

Specifications Specifications:

- galvanized steel structure
- epoxy paint (grey RAL 7040)
- 10m of pipe Ø125mm (-40° to +200°) in high temperature EPDM vulcanized fabric on both sides
- delivery: Ø125mm
- power supply: 400V Tri
- engine power: 0.5hp, 0.37KW, 50HZ, 1.0A

- max flow: 450m³/h
- noise level: 66dB
- thermal protection switch
- reel equipped with a ratchet, an end stop with anti-skid system
- exhaust nozzle equipped with an anti-intrusion grid, a vice grip, a gas suction shutter and an access for the opacimeter probe
- weight: 56kg

Many options available, please contact us.

Warranty period	2 years
Vehicle type	HGV
Decibel level	68.00 dB
Tension	400V
Product weight	56.00 kg
Diameter	125.00 mm
Air flow rate	700
Tariff code	Tariff Equipment (TE)
Type of gas extraction system	Fixed
DPF compatible	NO
Hose length (m)	10m
Hose diameter (mm)	125mm
Max. hose temperature (°C)	200°C
