

## INJECTOR EXTRACTOR SET FIAT

Reference : OM 9203

**Item name** INJECTOR EXTRACTOR SET FIAT

**Bar code** 3701555306483

**Introduction** Save time with this kit which allows the extraction of severely seized injectors.

**Text** Work without disassembling the cylinder head with its support system to be positioned and adjusted on the cylinder head cover. The different sliding bearings allow the cylinder to be adjusted for a quick and easy removal of the injectors.  
The special screw coupled to the cylinder will allow, thanks to a double grip (internal and external) on the injector, to increase tenfold the traction force with little risk of breaking the injector.  
The aluminum cylinder combines strength and lightness.

**Product highlight** 12T cylinder: no hydraulic pump required
