

## ELECTRICAL SENSORS AND ACTUATORS TESTER

Reference : AC 0900

<b>Item name</b>	ELECTRICAL SENSORS AND ACTUATORS TESTER
<b>Bar code</b>	3701555307510
<b>Introduction</b>	Don't worry about troubleshooting! This diagnostic tool will allow you to test and activate each component and sensor of the vehicle while checking their proper functioning.
<b>Text</b>	This device allows to check the operation of each engine sensor and/or to activate a component in actuator mode (injectors: gasoline - diesel common rail - LPG, motor fan, EGR valve, throttle box, glow plug, ignition coils...) while having the control of the frequency by varying the pulse width modulation (PWM). This tester also has the ability to control the magnetic pulse of a sensor without disassembling it, which represents a real time saving. Finally, thanks to the very precise diagnosis provided by the tester, it is easier to avoid replacing a non-defective element.
<b>Product highlight</b>	Automatic menu recognition by connecting the appropriate cable.
<b>Warranty period</b>	2 years
<b>Voltage</b>	12V
<b>Tariff code</b>	Tariff Normal (TN)
<b>Warranty Procedure</b>	DIAGNOSTIC
