

1/4" INSULATED MALE HEX SOCKET 6mm

Reference: OE 0283

Item name 1/4" INSULATED MALE HEX SOCKET 6mm

EAN code 3701555309392

Text This socket is specifically designed for use on hybrid and/or electric vehicles. In order to

guarantee an optimal comfort of use, the insulation around the socket is as thin as possible

while guaranteeing a good grip and a good adhesion with gloves.

The double layer of insulation in two different colors makes it possible to identify at a glance if the insulation (orange color) is damaged and therefore rendered unusable. This socket is electrically insulated, tested to 10000 V and approved to 1000 V AC.

Warranty period lifetime

Vehicle type HGV

Length 50.00 mm

Recesses size 6mm

Tariff code Tariff Normal (TN)

Drive 1/4"
