**Introduction** Stop wasting time.  
This kit will enable you to adjust the timing on Turbo engines only, without having to remove multiple parts.

- injectors
- fuel rail
- the second aluminum cylinder head cover

You won't have to replace the original gasket on the aluminum cylinder head cover, or any other O-rings or copper seals.  
The Pure tech Turbo engine is equipped with a vacuum pump, so you can go directly to the camshaft via the drive flat.
