Intro Stop wasting time.
This kit will enable you to adjust the timing on Turbo engines only, without having to remove multiple parts.

Text This kit eliminates the need to remove the following engine components:

- fuel pump
- injectors
- fuel rail
- the second aluminum cylinder head cover

You won't have to replace the original gasket on the aluminum cylinder head cover, or any other O-rings or copper seals.
The Pure tech Turbo engine is equipped with a vacuum pump, so you can go directly to the camshaft via the drive flat.

Also available for naturally-aspirated engines: PSA 1.0-1.2 VVT 3-cylinder Puretech OM 4041 timing set.
