

DIGITAL STROBE LIGHT

Reference : AC 5048

Item name DIGITAL STROBE LIGHT

EAN code 3701555318448

Text The strobe lamp is connected to a candle wire via an induction sensor. It produces a flash synchronized with the ignition point. This powerful flash, directed at the ignition marks engraved on the flywheel rim or damper pulley, "freezes" the position of these marks in relation to the fixed index, making it easy to check whether the ignition advance setting is correct or not. The exact ignition point can therefore be set with great precision by varying the phase shift from the device.

Product highlight Integrated phase shifting

Specifications CAUTION: The exact parameters for setting the Engine's ignition timing are usually found in the manufacturer's technical manual.

Warranty period 2 years

Fuel type Gasoline

Tension 12V

Tariff code Tariff Normal (TN)

Warranty Procedure EASY

***Public price Exl. Tax : €99.00**

*Applicable user fees from 01/09/2024 to 31/08/2025
