

## DIAGNOSTIC TOOL EURO 394 12"

Reference : ADTKTEURO394

**Item name**                   DIAGNOSTIC TOOL EURO 394 12"

**EAN code**                   3701555318851

**Intro**                         REMOTE VL/VUL range:  
12" professional diagnostic tool with IA

Product available for sale only in France and French overseas departments and territories.

**Text**                         Equipped with a customized TCOS system, the THINKTOOL Euro 394 supports dual RTC diagnostics and dual VCI display.  
The unit is capable of diagnosing both internal combustion and EV/HEV cars, covering 98% of vehicle models on the market.

High-performance hardware:

The device is equipped with an ultra-fast 8-core processor, 8GB RAM and 256GB ROM, a 13MP rear camera and a 5MP front camera.

The ultra-clear, high-brightness 12-inch 1080P IPS display offers unrivalled working comfort.

Combined with THINKLINK PRO, it supports CAN 2.0, CAN FD, DOIP and major diagnostic protocols such as J2534, covering both passenger cars and new-energy vehicles.

Customized TCOS system with new user interface design for an immersive user experience.

The new industrial design is light, robust and durable, with a thickness of just 11.5 mm at its thinnest point, making it ideal for ergonomic use in the field.

The VCI display function, which synchronizes key VCI data with the main unit in real time, enables convenient monitoring of the VCI's operating status.

Equipped with EV diagnostic software as standard, and an optional EV THINKCAR package.

Commercial vehicle diagnostics, which can be carried out after purchase of a commercial vehicle connector package.

Additional services, including ADAS calibration services, comprehensive TPMS services and key programming services.

THINKCAR AI diagnostic functions, which enhance the diagnostic experience and work efficiency.

- 41 reset modules:
