

INDUCTION HEATER

Reference : OE 0610

Item name INDUCTION HEATER

EAN code 3700461489419

Intro This tool allows a room to be heated in a precise area, meaning that nuts, screws, bolts, bolted connections, hubs (even if rusted), lambda probes, ball bearings can be unblocked...It also allows stickers to be easily removed and stuck door rods to be disassembled or HGV wheel screws to be removed.

It is a real alternative to a blowtorch or a welding torch: induction enables the metal (conductive) to be heated with precision in a localised spot with no risk of damage to surrounding parts and cables (glass, plastic, paintwork...) implementation of the tool. Not only this, the operator saves a considerable amount of time when implementing the tool.

Product highlight Saving time

Specifications Specifications:
- LED lighting of the work area
- power: 900W
- frequency: 25-60 Hz
- dimensions: 278x70x210mm

Contents Contents:
- rigid induction coil Ø18mm, length 200mm
- rigid induction coil Ø22mm, length 200mm
- rigid induction coil Ø28mm, length 600mm

- bearing coil length
- plastic and foam case
