| <b>Bar code</b>           | 3700461450983                                                                                                                                                                                                                                                                         |
| <b>Introduction</b>       | <p>This wrench is made to install and remove ball joints with no need to remove the steering rack.</p> <p>It is made up of two reversible serrated drives for perfect removal meaning that it is not necessary to pay attention to the direction in which the tool is positioned.</p> |
| <b>Text</b>               | <p>It can be used with traditional 1/2" D. ratchets and extensions. Thanks to its capacity range (30 to 40mm), it is suitable for all types of cars and LCVs.</p>                                                                                                                     |
| <b>Warranty period</b>    | 2 years                                                                                                                                                                                                                                                                               |
| <b>Tariff code</b>        | Tariff Normal (TN)                                                                                                                                                                                                                                                                    |
| <b>Drive</b>              | 1/2"                                                                                                                                                                                                                                                                                  |
