

STROBE LIGHT

Reference : AC 5038

Item name STROBE LIGHT

EAN code 3700461485688

Intro The stroboscopic light has to be connected to the first spark plug thread by means of an induction sensor. It makes a flash that is synchronized with the spark plug signal. When the powerful flash is directed in front of indicators engraved on the flywheel or the crankshaft pulley, it allows the reference position to be fixed in relation to the fixed index and therefore allows you to check very easily in advance whether the ignition is correct or not. It is therefore possible to regulate the exact point of ignition with great precision.

Text Attention cette lampe ne permet pas de régler le déphasage.

Specifications CAUTION: The precise parameters for the pre-settings for ignition are generally found in the manufacturer's technical manual.

Warranty period 2 years

Fuel type Gasoline

Tension 12V

Tariff code Tariff Normal (TN)

Warranty Procedure EASY

***Public price Exl. Tax : €89.00**

*Applicable user fees from 01/09/2023 to 31/08/2024
