

COMMON RAIL INJECTOR TESTER

Reference : AC 5240BL

Item name	COMMON RAIL INJECTOR TESTER
Bar code	3700461469053
Introduction	<p>Covers most vehicles with Common Rail Bosch (apart from Opel), Denso, Delphi and Siemens.</p> <p>This set can detect flow problems in injectors.</p>
Text	<p>A) The engine turns over but doesn't start. Placing the graduated crayons allows you to diagnose the problem:</p> <ul style="list-style-type: none">- if all the levels are similar: The injectors are working properly.- if you see that one level is considerably higher than the others (25%), that injector is damaged <p>The method is faster:</p> <ul style="list-style-type: none">- direct connection to the injector- the fuel goes directly into the crayons. <p>B) The engine starts. Use of the vials is advised. If excess flow is observed in one of the vials, replace the injector linked to that vial.</p>
Specifications	<p>Specifications:</p> <ul style="list-style-type: none">- C1 Bosch 90° injectors- C2 VDO/Siemens 90° injectors- C3 Denso 90° injectors
