

COMMON RAIL INJECTOR TESTER

Reference : AC 5240BL

Item name	COMMON RAIL INJECTOR TESTER
EAN code	3700461469053
Intro	Covers most vehicles with Common Rail Bosch (apart from Opel), Denso, Delphi and Siemens. This set can detect flow problems in injectors.
Text	A) The engine turns over but doesn't start. Placing the graduated crayons allows you to diagnose the problem: - if all the levels are similar: The injectors are working properly. - if you see that one level is considerably higher than the others (25%), that injector is damaged The method is faster: - direct connection to the injector - the fuel goes directly into the crayons. B) The engine starts. Use of the vials is advised. If excess flow is observed in one of the vials, replace the injector linked to that vial.
Specifications	Specifications: - C1 Bosch 90° injectors - C2 VDO/Siemens 90° injectors - C3 Denso 90° injectors

- flask capacity 50ml

Warranty period 2 years

Fuel type Diesel

Tariff code Tariff Normal (TN)
