

## DIGITAL MULTI-PRESSURE TESTER

Reference : AC 0800

<b>Item name</b>	DIGITAL MULTI-PRESSURE TESTER
<b>Bar code</b>	3700461494369
<b>Introduction</b>	Universal digital pressure gauge, enables you to take all types of pressure, whether PNEUMATIC or HYDRAULIC, and thus compare the physical and real values of the circuit with those supplied by the various sensors by means of a Diag reading. The comparison will help you identify the source of the fault (mechanical or electrical).
<b>Text</b>	<p>This version is intended for the following controls:</p> <ul style="list-style-type: none"><li>- gasoline engine compression</li><li>- diesel engine compression by the injector, optional or fake spark plugs available</li><li>- oil pressure, to be connected to the standard connection (not supplied) see option if necessary</li><li>- low fuel pressure</li><li>- pressure adblue PSA, others...</li><li>- depression</li><li>- particle filter</li><li>- cooling circuit</li><li>- turbo</li></ul> <p>An optional 2000 bar high pressure test kit and an accessory for motor leak test are also available.</p>
<b>Product highlight</b>	Clear and precise reading of live values
<b>Specifications</b>	The instrument is equipped with a sound and visual safety device to identify the sensor according to the measurement, the calibration is simple and integrated into the instrument.

Registration for expertise.

## Contents

Contents:

- 1 TFT color display tester 7" with resistive touch screen
  - battery: lithium polymer 3.7V / 2000mA
  - USB smart battery charging with LED indicator
  - PC connection via USB port
  - ABS case with rubber bumpers
  - all screws are mounted on brass inserts
  - 1/4 thread brass insert at the back to fix the bracket
  - 1 sensor 0/300 bar (2m)
  - 1 sensor -1/+3 bar (2,90m)
  - 1 universal diesel compression adapter
  - 1 universal fuel compression adapter
  - 12 quick connectors, original manufacturer, extremely flexible
- All components are available at retail

## Advice

La récupération du logiciel s'effectue depuis le lien suivant :  
<http://universalpressuretester.com/software.exe>

Télécharger le et installez-le sur le bureau de votre PC, ainsi vous pourrez profiter des enregistrements ou des impressions de toutes valeurs de pression.

La mise à jour de la tablette s'effectue également depuis ce lien.
