

AIR CONDITIONING WASHING KIT

Reference: AC 1023

Item name AIR CONDITIONING WASHING KIT

EAN code 3700461494819

Intro An economical way to remove contaminants and limescale from air conditioning system

components.

Text The process thoroughly cleans the circuit by removing oil, contaminants, refrigerant

residues and moisture from the circuit.

Essential intervention, when replacing a component of the circuit or simply opening the circuit, to quickly and efficiently remove refrigerant oil and debris when replacing a

component (e.g. compressor).

Easy to use: simply fill the decontamination solution cartridge, pressurize with the

nitrogen cartridge and purge each component.

The cleaning solution is a highly evaporating product, so there is no risk of leaving

moisture in the circuit.

The drying of the circuit is done naturally with the hydrogenated nitrogen gas used.

2 washes with 500ml will be possible.

Warranty period 2 years
